

2-Way Articulating Flexible Borescopes

3.5, 4, and 6 mm Articulating Flexible Borescopes (Fiberscopes)

- High Resolution, Borosilica Coherent Fiberoptic Imaging bundle with over 10,000 pixels to insure optimal clarity of images during inspection.
- Forward viewing direction with 2-way, +/- 120 Degree articulation for off-angle viewing
- Working lengths available up to 3 meters
- Adjustable diopter on eyepiece for focusing
- Flexible outer protective sheath and built-in strain relief at eyepiece to protect optical bundle
- Attached light guide cable for maximum light transmission
- Detachable 90 degree (side) view prism available as an option
- Video Image capture to digital photo or VCR available on scopes

Part Number	Diameter (mm)	Length (mm)	Direction of View	Optical System	Field of View
FF3510	3.5 (.140")	1000 (39")	0°	Fiberoptic	60°
FF3513	3.5 (.140")	1300 (51")	0°	Fiberoptic	60°
FF3515	3.5 (.140")	1500 (59")	0°	Fiberoptic	60°
FF4010	4 (.160")	1000 (39")	0°	Fiberoptic	60°
FF4013	4 (.160")	1300 (51")	0°	Fiberoptic	60°
FF4015	4 (.160")	1500 (59")	0°	Fiberoptic	60°
FF6010	6 (.240")	1000 (39")	0°	Fiberoptic	60°
FF6015	6 (.240")	1500 (59")	0°	Fiberoptic	60°
FF6020	6 (.240")	2000 (79")	0°	Fiberoptic	60°
FF6030	6 (.240")	3000 (119")	0°	Fiberoptic	60°

QUALITY BORESCOPIES AT GREAT PRICES

2-Way Articulating Flexible Borescopes

Part Numbers	Options available for Fiberscopes
P/N FF40P90	90° Prism for 4mm Scope
P/N FF60P90	90° Prism for 6mm Scope
P/N MS-24	MicroSunlight-24 Metal Halide Hi Intensity Light Source
P/N FOI-1	150 Watt Halogen Light Source
P/N LS-250	250 Watt Halogen Light Source
P/N FFVideo1A	Color Video Package
P/N V-LCD4	LCD Monitor (For use with FFVideo1A)
P/N CAP-1	Portable Image Capture device for digital photos
P/N CAP-1-LCD	Portable Image Capture device w/ LCD display for digital photos
P/N CAP-PR-1	Image Capture/ Color Printer for digital photos
Heavy Duty Case	Special Instrument Case that houses scope and light source
