QUALITY BORESCOPIES AT GREAT PRICES

4-Way Articulating Flexible Borescopes

8 mm Articulating Flexible Borescope (Fiberscope)

Each 4-way articulating scope is designed for easy use with one-hand operation design. The brake mechanism is automatic and all directions (up, down, left, right) are articulated between the thumb and index finger on one hand. Installed in this line of scopes is an increased size coherent fiber bundle of 1.5mm diameter which contains over 25,000 individual borosilica glass fibers. Each flexible scope is covered with a stainless steel braid for protection of the optical components inside and abrasion resistance for a long service life. The light bundle is permanently attached to provide optimum light transmission all the way to the distal tip for bright clear images of your inspections. The DIN standard size eyepiece has adjustable diopter focusing and can be easily upgraded to video operation with the attachment of our FVA series video adapters.

- 8mm Articulating Fiberscopes
- 4-Way Articulation — Up, Down (+/- 120°), Left, Right (+/- 90°)
- Up to 3 meters in length
- Hi-Res. fiberoptic image bundle for crystal clear viewing
- 60° Field of View
- 0° (Forward) view, Removable 90° side view tip available as an option.
- Fully Video capable for taking digital photos or to VCR.

QUALITY BORESCOPIES AT GREAT PRICES

4-Way Articulating Flexible Borescopes

Part Number	Diameter (mm)	Length (mm)	Direction of View	Optical System	Field of View
FF8010	8 (.315")	1000 (39")	0°	Fiberoptic	65°
FF8015	8 (.315")	1500 (59")	0°	Fiberoptic	65°
FF8020	8 (.315")	2000 (79")	0°	Fiberoptic	65°
FF8030	8 (.315")	3000 (117")	0°	Fiberoptic	65°

Part Numbers	Options Available for Fiberscopes
P/N FF80P90	90° Prism for 4mm Scope
P/N MS-24	MicroSunlight-24 Metal Halide Hi Intensity Light Source
P/N FOI-1	150 Watt Halogen Light Source
P/N LS-250	250 Watt Halogen Light Source
P/N FFVideo1A	Color Video Package
P/N V-LCD4	LCD Monitor (For use with FFVideo1A)
P/N CAP-1	Portable Image Capture device for digital photos
P/N CAP-1-LCD	Portable Image Capture device w/ LCD display for digital photos
P/N CAP-PR-1	Image Capture/ Color Printer for digital photos
Heavy Duty Case	Special Instrument Case that houses scope and light source
